

BUD JUICE

Put some "juice" in your jungle

The primary activity of the female flower is stimulated by various natural micro nutrient enzyme activators & naturally occurring plant growth regulators.

BUD JUICE formula brings old & new technology together for the first time, to give you incredible yields from a totally safe natural product

Bud Juice formula will:

- * Trigger flower production
- * Increase flower sites
- * Enhance yield up to 40%
- * Increase floral development
- * Increase essential oil production
- * Stimulate plant krebs cycle
- * Increase cell wall permeability
- * Increase disease resistance

Bud Juice formula contains only **NATURALLY DERIVED** ingredients. There are absolutely **NO** nasty chemicals. We guarantee it!

Naturally derived ingredients:

- * Triacotinol
- * Saponins
- * Soy Extract
- * Phytoestersols
- * Yucca Extract
- * Amino Acids
- * Organic Acids
- * Plant Extracts
